ScanCast™

Remove Redundant Barcode Scans from Your Receiving Process

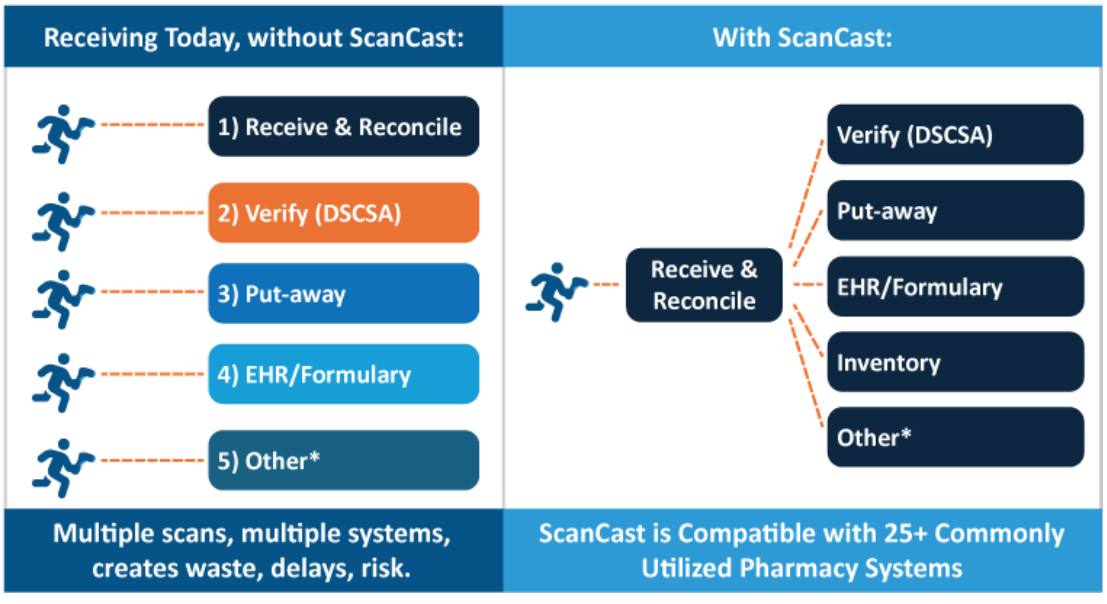

Embrace Tomorrow, with ScanCast

ScanCast is an optional add-on to Verify on Receipt®, ConsortiEX's premier barcode verification and inventory reconciliation solution.

No Network Connectivity, Minimal Security Gaps - ScanCast is hard-wired, device-to-device only; with no Wi-Fi, no network connectivity, and no wireless security exposure.

Keep IT Burden Free - ScanCast devices are system specific, and come pre-configured to your specific systems; as a plug-and-play device, setup does not require internal IT involvement.

Fewer Scans, Fewer Errors, Fewer FTEs on Receiving - ScanCast provides consistent data across your systems, with fewer scans, and fewer FTEs, freeing your staff up from redundant scanning, so they can focus on more pressing tasks.

Did You Know, ScanCast enables a 40% reduction in FTE for receiving, with little to no involvement from internal IT?
